

**Book of abstracts of EBEA 2007
8th International congress of the
European BioElectromagnetics
Association**

11-13 April 2007

Ecole Nationale Supérieure de Chimie et de Physique
de Bordeaux

Organizer

European BioElectromagnetics Association (EBEA)

National organizers

IMS laboratory, Bioelectromagnetics group
EPHE bioelectromagnetics laboratory

Acknowledgements

The congress is supported by

- Association Française des Opérateurs Mobiles
 - CASDEN BP
- Ecole Nationale Supérieure de Chimie et Physique de Bordeaux
 - Ecole Pratique des Hautes Etudes
 - Electric Power Research Institute
 - Electricité de France
 - EMF-NET
- Fondation Santé et Radiofréquences
- Forschungsgemeinschaft Funk e.V.
 - GSM association
- Mobile Manufacturer Forum
 - Naturalia et Biologia
- Université Bordeaux 1
 - Ville de Pessac

Tutorial & plenary lectures

Tutorial 1

Dosimetry: Present questions and future challenges

Joe Wiart, France Telecom R&D, France

Plenary 1

Extremely-Low Frequency Electromagnetic Fields: A WHO perspective

Emilie Van Deventer, World Health Organisation, Switzerland

Tutorial 2

Epidemiological study designs and their application in the field of mobile phone use and the risk of brain tumors

Joachim Schüz, Institute of Cancer Epidemiology, Denmark

Plenary 2

Cell electromanipulation *in vitro* and *in vivo*: biomedical applications

Lluís Mir, Institut Gustave Roussy, France

Platform presentations

Session 1

Human Studies

S-1-1 Evaluation of the chronic effects of 50-Hz magnetic fields on human immune functions

Y. Touitou, A. Auzéby, J. Lambrozo, F. Camus, M. Souques, A. Verrier

S-1-2 Increased frequency of micronuclei in lymphocytes of workers from a hot dip galvanizing plant

A. Pilger, E. Kratochvil, C. Schwarz, P. Hartbauer, H.W. Rüdiger

S-1-3 Explanations for electromagnetic hypersensitivity: a literature review

G. Oftedal

S-1-4 Subjective sleep impairment in the vicinity of mobile phone base-stations

N. Leitgeb, J. Schröttner, R. Cech

S-1-5 Effects of electromagnetic fields emitted by communication systems on human cognition

S.J. Smith, J.A. Groeger, S.C. Bowditch, R.I. Grose, R.H. Inns, A.D. Wright

S-1-6 Mobile phone headache: a provocation study of subjects attributing symptoms specifically to the phones

G. Oftedal, A. Straume, A. Johnsson, L.J. Stovner

Session 2

Dosimetry 1

S-2-1 A reverberation chamber for the exposure of rodents to radio frequency electromagnetic fields: design and performance

M. Capstick, N. Kuster, S. Kühn, V. Berdiñas Torres, F. D. Faraci, J. Ladbury, G. Koepke, D.L. McCormick, J.R. Gauger, R. Melnick

S-2-2 A new 900 MHz ridged-waveguide microwave exposure equipment to achieve high power density irradiation for *in vitro* experiments

T. Hikage, M. Endo, T. Nojima

S-2-3 RF Exposure of cells *in vitro* using finlines for three different frequency bands

A. El Ouardi, J. Streckert, T. Reinhardt, A. Bitz, J. Engel, S. Münkner, V. Hansen

S-2-4 FDTD simulation of dosimetry for bent rats exposed to GSM-900 signals in a TEM cell

J. Wang, O. Fujiwara

S-2-5 Using planar models to compare local SAR to incident power flux density as the best metric for basic restrictions between 1 and 10 GHz

V. Anderson, R. McIntosh, R. Croft, R. McKenzie

S-2-6 Statistical assessment of SAR typology on the SAM head

O. Merkel, M.L. Gibergues

S-2-7 On the development of compliance procedures for BTS antennas

P. Bernardi, M. Cavagnaro, S. Pisa, E. Piuze

Session 3

In vitro studies

S-3-1 Extremely-low frequency magnetic fields enhance cytokine-mediated ,-cell dysfunction

T. Sakurai, M. Yoshimoto, S. Koyama, J. Miyakoshi

S-3-2 Evaluation of genotoxic effects in human fibroblasts following 900 MHz RF exposures and co-exposures to MX

A. Sannino, G. Di Costanzo, M. Sarti, O. Zeni, M.R. Scarfi

S-3-3 Mobile radio base station-emitted radiation does not induce DNA strand breaks or apoptosis in human cells

M. Sekijima, N. Sakuma, N. Kaji, H. Takeda, H. Hirose, T. Nojima, J. Miyakoshi

S-3-4 Effect of the EDGE signal on the apoptosis of neuronal cells

F. Poulletier de Gannes, G. Ruffié, B. Billaudel, I. Lagroye, B. Veyret

S-3-5 Neoplastic transformation in BALB/3T3 cells exposed to 2-GHz band W-CDMA modulated radiofrequency fields

H. Hirose, T. Suhara, K. Inoue, K. Nakayama, M. Sekijima, T. Nojima, J. Miyakoshi

S-3-6 Temperature effects in brain slices exposed to radiofrequency fields

N.C.D. Mifsud, I.R. Scott, A.C. Green, J.E.H. Tattersall

Session 4

Dosimetry 2

S-4-1 Dosimetric evaluation and the comparison of different exposure apparatus used in provocation studies

C. Boutry, A. Romann, S. Kuhn, N. Nikoloski, J. Keshvari, N. Kuster

S-4-2 Development of CAD based anatomical human body models of two adults and two children

A. Christ, W. Kainz, E. Hahn, K. Honegger, W. Rascher, R. Janka, W. Bautz, B. Kiefer, P. Schmitt, H.P. Hollenbach, J. Chen, J.X. Shen, E. Neufeld, M. Oberle, N. Kuster

S-4-3 Radio frequency averaging methods

P. Preiner, S. Cecil, N. Mitrevski, B. Rusu, G. Neubauer, G. Vermeeren, W. Joseph, L. Martens, S. Kuehn, N. Kuster

S-4-4 A highly efficient method for realistic compliance zone assessment around base station antennas

F.J.C. Meyer, M.L. Strydom, V. Kellerman

S-4-5 Residential and school exposure of children between 0 and 15 years old to a 50 Hz magnetic field of 0.2, 0.3 and 0.4 microtesla in Belgium

G. Decat, I. Van Den Heuvel, L. Mulpas

S-4-6 Exposure assessment in the neighbourhood of a WiMax base station antenna

W. Joseph, L. Verloock, L. Martens

S-4-7 French RF-exposure study

R. de Seze, M. Hours, E. Cardis, J. F. Viel

Session 5 Epidemiology

S-5-1 ELF electromagnetic fields (50-60 Hz): which exposure values?

J. Lambrozo, M. Souques

S-5-2 Adult cancers near overhead power lines

M.B. Toledano, D. Briggs, J. Swanson, G. Shaddick, C. Keshishian, K. De Hoogh, P. Elliott

S-5-3 Assessment of the radio frequency exposure in the general population: results of a pilot study

J.F. Viel, M. Hours, E. Cardis

S-5-4 Childhood leukaemia in relation to radiofrequency electromagnetic fields emitted from television and radio broadcast transmitters: epidemiological aspects of a case-control study in Germany

H. Merzenich, S. Schmiedel, M. Blettner, H. Brüggemeyer, J. Philipp, J. Schüz

S-5-5 Case control study of cancer incidence in early childhood and proximity to mobile phone base stations

D. Briggs, M.B. Toledano, L. Beale, N. Best, J. Bennett, C. Keshishian, K. De Hoogh, P. Elliott

S-5-6 An international case-control study on mobile phone use and the risk of brain tumors in children and adolescents (Cefalo study): a report from the field work and first results on mobile phone usage among children

J. Schüz, M. Feychting, M. Röösli, T. Tynes, L.S. Schmidt, C. Johansen, M. Prohazka, E. Sverin, D. Jenni, C. Kuehni, L. Klaboe

Session 6 Perform A

S-6-1 Performance of the exposure systems developed for the PERFORM A studies

W. Kainz, W. Oesch, N. Nikoloski, V. Berdiñas Torres, S. Ebert, M. Frauscher, A. Klingenböck, J. Froehlich, J.C. Gröbli, N. Kuster

S-6-2 GSM and DCS wireless communication signals: combined chronic toxicity / carcinogenicity study in the Wistar rat

P.A. Smith, N. Kuster, S. Ebert, H.J. Chevalier - presented by U.M. Decker on behalf of P.A. Smith

S-6-3 PERFORM-A: carcinogenicity study of GSM and DCS wireless communication signals in B6C3F1 mice

T. Tillmann, C. Dasenbrock, H. Ernst, W. Behnke, S. Rittinghausen, J. Buschmann

S-6-4 Carcinogenicity study in *Pim 1* transgenic mice exposed to pulsed 900 MHz radiofrequency radiation

K. Rolfo, P. Yu, M. Carbonato, G. Oberto, N. Kuster, S. Ebert, S. Tofani

S-6-5 Study on potential effects of "902 MHz GSM Wireless communication signals" on DMBA-induced mammary tumours in Sprague-Dawley rats

R. Hruba, G. Neubauer, N. Kuster, W. Kainz, M. Frauscher

Session 7

Interaction mechanisms

S-7-1 A review of recent workshops on interaction mechanisms

G. D'Inzeo

S-7-2 Effects of magnetic fields on biochemical reactions

J. B. Pedersen, M. J. Hansen, N.N. Lukzen, A.B. Doktorov

S-7-3 Feedforward amplification of EM signals in sensory network models

M. Gianni, A. Paffi, M. Liberti, F. Apollonio, G. D'inzeo

S-7-4 The science of radiofrequency hazard assessment: where are we going? Can proposed mechanisms help?

M. Swicord

S-7-5 The role of water at the interface of cell membrane: a first molecular dynamics study in presence of static electric field

P. Marracino, C. Merla, F. Apollonio, M. Liberti, G. d'Inzeo

Session 8

In vivo studies

S-8-1 Biological effects of high power microwaves

C. Hernandez, S. Boyer, A. Sansiquet, C. Fonta, R. De Seze

S-8-2 Transient effects of RF-EMF exposure on the brain-microcirculation in either juvenile or adult rats

H. Masuda, A. Ushiyama, M. Takahashi, S. Hirota, S. Tanaka, H. Kawai, K. Wake, S. Watanabe, M. Taki, C. Ohkubo

S-8-3 Effects of GSM-modulated 900 MHz RF exposure on bone marrow cell differentiation *in vivo*

M.G. Prisco, F. Nasta, G.A. Lovisolo, C. Marino, C. Pioli

S-8-4 Investigation on the mutagenicity of electromagnetic fields using the Tradescantia micronucleus bioassay

H. Lehmann, C. Pickl, M. Urech

S-8-5 Consistent outcome of exposure of pre-leukaemic AKR/J mice to magnetic (50 Hz, 1, 100, and 1000 μ T) and electromagnetic fields (900 MHz, 1966 MHz, 0.4 W/kg SAR)

A. Lerchl, A. M. Sommer

S-8-6 The effects of 100 and 500 microtesla extremely-low frequency magnetic fields on glial cells in the brain

M.Z. Akdag, S. Dasdag, E.U. Kemal, U. Yegin

Special session

Implementation of worker's European directive

SP-1 Nuclear magnetic resonance (NMR) appliances and workers exposure to static magnetic fields

J. Karpowicz, K. Gryz

SP-2 Contact currents induced by electrical field in 400 kV substations

Y. Hamnerius, J. Cedergren

SP-3 Some case studies on occupational exposure to electromagnetic fields

E. Karabetsos, G. Filippopoulos, D. Koutounidis, C. Govari, N. Skamnakis

SP-4 EU workers directive: the Dutch classification system

J.F.B. Bolte, M.J.M. Pruppers

Session 9 Research programmes

S-9-1 The european project EMFNEAR. Exposure at UMTS electromagnetic fields: study on potential adverse effects on hearing

P. Ravazzani, L. Collet, M.E. Lutman, C. Marino, M. Sliwinska-Kowalska, G. Tavartkiladze, G. Thuroczy, I. Uloziene, M. Parazzini

S-9-2 The Australian Centre for Radio Frequency Bioeffects Research (ACRBR): 2007 update

R.J. Croft, M. Abramson, I. Cosic, J. Finnie, R. Mckenzie, A. Wood

S-9-3 The German mobile telecommunication research programme approaching termination

B. Pophof, M. Asmuss, C. Baldermann, A. Dehos, D. Geschwentner, M. Kreuzer, C. Poelzl, G. Ziegelberger, R. Matthes

S-9-4 Reflexion upon COST 281; its activities and its results

G. Friedrich

S-9-5 Scientific basis of IEEE c95.1-2005 RF exposure standard and harmonization with the ICNIRP guidelines

C.K. Chou, J.A. d'Andrea, R.A. Tell, J.P. Reilly, E.R. Adair, M.L. Swicord, S. Lang, J.J. Defrank, R.C. Petersen

Session 10 Medical applications

S-10-1 UWB microwave system for breast cancer imaging

M. Klemm, I. Craddock, J. Leendertz, R. Benjamin, A.W. Preece

S-10-2 Effect of pulsed electromagnetic field stimulation on knee cartilage, subchondral and epiphyseal trabecular bone of aged Dunkin Hartley guinea pigs

M. Fini, P. Torricelli, N.N. Aldini, F. Cavani, S. Setti, R. Giardino - presented by R. Cadossi on behalf of S. Setti

S-10-3 PEMF dosimetry in an ion binding pathway : application to tendon repair in the rat

A.A. Pilla, D.J. Muehsam, M. Patel, B. Strauch

S-10-4 Cartilage repair with osteochondral autografts in sheep, effect of biophysical stimulation with pulsed electromagnetic fields

F. Benazzo, M. Cadossi, F. Cavani, M. Fini, G. Giavaresi, S. Setti, M. Solà, R. Cadossi, R. Giardino

S-10-5 PEMF signals protect dopaminergic neurons from lipopolysaccharide-induced inflammation in culture

D. Casper, E. Taub, L. Alammar, A. Pidel, A.A. Pilla

Posters presentations

Poster session: Dosimetry

P-2 EMF-NEAR project: human exposure system and RF dosimetry for studies on potential hearing effects caused by UMTS cellular phones

T. Fábíán, B.F. Molnár, J. Bakos, G. Thuróczy

P-4 Anomalous values of D.C. permittivity in heterogeneous media

B. Bianco, E. Moggia

P-6 Microwave exposure of colour pigments

A. Balletti, B. Bisceglia, R. De Leo, A. Diaferia, N. Diaferia, F. Morresi, V. Rosito, U. Santamaria

P-8 Dosimetry of an incubator illuminated in far field for *in vitro* studies at several frequencies

A. Collin, M. Cueille, P. Levêque, A. Perrin

P-10 Possible application of sleeve-dipole antennas for *in vitro* exposure of brain slices

N. Roumpedaki, M. Liberti, F. Apollonio, A. Paffi, A. Galli, G. d'Inzeo

P-12 *In vivo* exposure system to 50 Hz and harmonics magnetic field

I. Magne, F. Deschamps, J.M. Bailly, J.P. Gernez

P-14 Numerical temperature distribution resulting from optimal E-field distribution during radiofrequency hyperthermia treatment

N. Siauve, L. Nicolas, B. Lips, N. Burais

P-16 Setup and dosimetry for exposing human skin cells to GSM900 radiation *in vivo*

T. Toivonen, T. Toivo, L. Puranen, K. Jokela

P-18 Numerical multiphysic dosimetry including convection for *in vitro* microwave exposure systems

M. Cueille, A. Collin, P. Leveque

P-20 Electrodes characterisation for low frequency bioimpedance spectroscopy of biological cells aggregate

M. Nadi, J. Prado, C. Margo, A. Rouane

P-22 Numerical dosimetry for the PET study of the cerebrometabolic effects of radiation from cell phones

O. Franek, G.F. Pedersen, J.B. Andersen, S.F. Eskildsen, L.R. Østergaard, A. Møller, A. Gjedde

P-24 Correlating bandwidth and efficiency with SAR of monopole antennas in the 300 - 6000 MHz band

A.T.M. Sayem, G. Schmid, N. Haas, B. Petric, M.G. Douglas, M. Ali

P-26 *In vivo* dosimetry depending on the variability of electromagnetic and geometric parameters

A. Collin, M. Cueille, C. Pivain, P. Levêque

P-28 Simplified SAR estimation formulas for RF exposure from base station antennas

B. Hansson, B. Thors, C. Törnevik

P-30 Uncertainty assessment and its correction of the SAR inside juvenile rat phantoms using the thermographic technique in 1.5 GHz band

H. Kawai, S. Tanaka, S. Watanabe, M. Taki, T. Uno

P-32 Strategy to assess inhomogeneous ELF magnetic field exposures

N. Leitgeb, R. Cech

P-34 On the numerical modelling of mobile phones for SAR calculations

V. Monebhurrin, F. Lacroux, M.F. Wong, J. Wiart

P-36 SAR calculations in an anatomically realistic model of pregnant woman for whole-body exposure to RF electromagnetic fields

T. Nagaoka, T. Togashi, K. Saito, M. Takahashi, K. Ito, S. Watanabe

P-38 SAR measurement of GSM/GPRS/EDGE mobile phones

O. Merckel, S. Chauvin

P-40 SAR evaluation using anatomical human models with a body-worn wireless device

T. Onishi, H. Ebara, P. Pongpaibool, L. Hamada, K. Kiminami, S. Uebayashi, S. Watanabe

P-42 Optimized sensor for the SARmeter

D. Picard, S. Chauvin

P-44 Coupling between hands free wire and mobile phone

D. Picard

P-46 Advanced analysis of hands free kits dosimetry results

D. Picard

P-48 Induced currents into the human body by ELF power systems: sensitivity to tissues properties

R. Scorretti, L.H. Hoang, N. Burais

P-50 The SAR of a realistic human model due to mobile-phone RF radiation in enclosed areas

A.Y. Simba, T. Hikage, S. Watanabe, T. Nojima

P-52 Influence of a PEC ground on the whole-body averaged SAR

G. Vermeeren, W. Joseph, L. Martens, P. Preiner, S. Cecil, N. Mitrevski, G. Neubauer, S. Kuehn, N. Kuster

P-54 Wide frequency range biological tissues equivalent liquids

V. Vigneras, F. Bonnaudin

P-56 The complex permittivities of ocular tissues at millimeter-wave bands

H. Wakatsuchi, M. Hanazawa, T. Sakai, S. Watanabe, M. Kojima, Y. Yamashiro, K. Sasaki, O. Hashimoto

P-58 Influence of morphology on SAR induced in different child head models using a mobile phone

A. Hadjem, D. Lautru, M.F. Wong, V.F. Hanna, J. Wiart

P-60 Childhood leukaemia in relation to radiofrequency electromagnetic fields emitted from television and radio broadcast transmitters: individual exposure assessment for a case-control study in Germany

H. Brüggemeyer, J. Philipp, H. Merzenich, S. Schmiedel, M. Blettner, J. Schüz

P-62 Personal, non-invasive dosimetry for radio-frequency exposure assessment

S. Iskra, R. McKenzie, I. Cosic

P-64 ELF magnetic emissions of electric appliances

N. Leitgeb, R. Cech, J. Schröttner

P-66 SAR measurement of WiFi network card

O. Merckel, T. Letertre, A. Azoulay

P-68 Intercomparison measurements

S. Miclaus, P. Bechet

P-70 Personal measurements of residential 50 Hz magnetic field exposures from transformer stations
J. Szabó, G. Jánossy, G. Thuróczy

P-72 SAR assessment due to a dish operating at 7.75 GHz
F. Lacroux, M.F. Wong, J. Wiart

Poster session: In vitro studies

P-74 Distribution of deposits of ferrobacteria in high-gradient magnetic fields as a model of formation of ferromanganese nodules in sea-bed layers
E.Z. Gak, M.Z. Gak

P-76 Weak static field effects on endothelial cells
C. F. Martino, H. Perea, U. Hopfner, H. J. Qi, E. Wintermantel

P-78 *In vitro* study of the effects of ELF on genes expression
J.F. Collard, M. Hinsenkamp

P-80 Menadione-induced apoptosis is affected by low frequency 50 Hz magnetic fields in murine L929 fibroblast cells
A. Markkanen, J. Naarala, J. Juutilainen

P-82 Proteoglycan synthesis in bovine articular cartilage explants exposed to different low-frequency low-energy pulsed electromagnetic fields
M. De Mattei, M. Fini, S. Setti, A. Ongaro, D. Gemmati, G. Stabellini, A. Pellati, A. Caruso

P-84 WITHDRAWN

P-86 Effect of ELFMF stimulation on replication and differentiation of culture of adult murine
L. Verdugo-Díaz, M.A. Alquicira, O. Garcia, A.C. Rodríguez, J. Belkind-Gerson, L. Cañedo

P-88 Apoptotic response to 50-Hz MF in two human cancer cell lines
M.A. Martínez, M.A. Cid, A. Ubeda, J.Leal, M.A. Trillo

P-90 Evaluation of mutagenicity by exposure to intermediate frequency magnetic fields in mouse lymphoma assay
M. Ikehata, Y. Suzuki, S. Yoshie, K. Wake, S. Nakasono, M. Taki

P-92 DNA-damaging effects of UMTS electro magnetic fields in human cells *in vitro*
E. Kratochvil, C. Schwarz, A. Pilger, F. Adlkofer, H. Rüdiger

P-94 Development of a human T-lymphocyte model to assess potential health effects of radio frequency radiation exposure
S.D. Naughton, C.D. Lindsay, R. Whiting, R.H. Inns, N. Sayer

P-96 A study of *in vitro* effect of 2.45 GHz microwave exposure on DNA repair genes transcription
A. Perrin, M. Freire, C. Bachelet, C. Fournier, P. Lévêque, A. Collin, A. Peinnequin

P-98 Acute exposure to CW 900 MHz radiofrequency does not affect synaptic transmission in the rat perirhinal cortex
D. Platano, P. Mesirca, A. Paffi, M. Pellegrino, M. Liberti, F. Apollonio, F. Bersani, G. Aicardi

P-100 Exposure to 900 MHz radiofrequency radiation induces caspase-3 activation in human T cells
R. Palumbo, F. Brescia, A. Sannino, M. Sarti, M.R. Scarfi

P-102 Study of DNA damaging effect of 1800 MHz electromagnetic radiation on human lymphocytes
G. Kubinyi, T. Fabian, J. Bakos, G. Thuroczy

Poster session: Epidemiology

P-1 Personal exposure to ELF magnetic fields in various occupational activities in Italy

F. Gobba, G. Bravo, M. Scaringi, A.M. Vandelli, A. Romanelli

P-3 Natural killer activity in peripheral blood lymphocytes in workers exposed to different levels of extremely low frequency-magnetic fields (ELF-MF)

F. Gobba, A. Bargellini, P. Borella, M. Scaringi, G. Bravo

P-5 Exposure to magnetic fields and survival after diagnosis of childhood leukaemia: A German cohort study

A.L. Svendsen, T. Weihkopf, P. Kaatsch, J. Schüz

P-7 Exposure modelling of high frequency electromagnetic fields

A. Bürgi, G. Theis, A. Siegenthaler, M. Rössli

P-9 The national register of RF workers (UK): A long-term follow-up study

I. Litchfield, T. Sorahan

P-11 International cohort study on mobile phone use and health: COSMOS

A. Ahlbom, A. Auvinen, P. Elliott, L. Hillert, C. Johansen, J. Schüz, M. Toledano

Poster session: In vivo studies

P-13 Effects of sub-acute exposure to static magnetic field on emotional behaviour in rats

M. Ammari, H. Abdelmelek, J. Mustapha, M. Sakly

P-15 Weak nonionization environment electromagnetic fields (Δ EMFs) and their effects to aquatic ecosystems

V.V. Alexandrov, B.V. Alexandrov, A.N. Chusov

P-17 The apoptosis-inducing effect of extremely low frequency magnetic field on spermatogonia in seminifer tubules

M.Z. Akdag, S. Dasdag, A.K. Uzunlarengin, U. Yilmaztepe

P-19 Absence of effects of extremely low frequency magnetic fields and their harmonics on the incidence of lymphoblastic leukemia in rats

N. Bernard, A.J. Alberdi, M.L. Tanguy, H. Brugere, C. Hubert, N. Gendrey, P. Helissey, J.J. Guillosson, J. Nafziger

P-21 Effects of electromagnetic fields on thyroid gland structure in ovariectomized rats

M. Matavulj, V. Rajkovic, T. Lukac, G. Stefanovski

P-23 Histological studies of the thyroid gland in rats after combined exposure to electromagnetic fields and the endocrine disrupting compound atrazine

V. Rajkovic, M. Matavulj, O. Johansson

P-25 Role of 50 Hz magnetic field exposure on the development of amyotrophic lateral sclerosis in transgenic mice

F. Poulletier de Gannes, M. Taxile, S. Duleu, G. Ruffié, B. Billaudel, M. Geffard, B. Veyret, I. Lagroye

P-27 WITHDRAWN

P-29 Sensitivity and behaviour of tiger mosquitos exposed to RF signals

S. Mariani, E. Rossi, V. Lopresto, S. Mancini, R. Pinto, C. Marino, G. Lovisolo

P-31 Bacterial effects of the extremely high frequency electromagnetic radiation with low intensity: inhibition of the growth

H. Tadevosyan, H. Sargsyan, V. Ohanyan, A. Trchounian

P-33 Effects of chronic UMTS electromagnetic field exposure on tumor development in mice

T. Tillmann, T. Reinhardt, A. Bitz, J. Streckert, H. Ernst, V. Hansen, C. Dasenbrock, U. Mohr

P-35 Influence of 900 and 1800 MHz electromagnetic fields on structure and function of thyroid gland in rats

I. Ocal, M. Bossola, P. Galloni, G.A. Lovisolo, M. Piscitelli, C. Marino

P-37 Acute exposure to a low intensity-electromagnetic field (GSM 900 MHz) triggers an early response of astroglial cells

O. Ramodihalirafy, M. Mallat, T.M. Jay, J.M. Edeline

P-39 Effects of an acute 1800 MHz GSM exposure on brain activity and glia of rats

E. Brillaud, A. Piotrowski, A. Lecomte, F. Robidel, R. de Seze

P-41 Effects of GSM-1800 exposure on radical stress in rat brain

I. Lagroye, E. Haro, E. Ladeveze, B. Billaudel, M. Taxile, B. Veyret

P-43 Effects of a 4-week chronic head-only exposure to GSM-1800 or UMTS signals on the brain of rats

B. Billaudel, M. Taxile, L. Mayeur, E. Ladeveze, M. Laclau, E. Haro, P. Lévêque, G. Ruffiè, F. Poullétier de Gannes, I. Lagroye, B. Veyret

P-45 The apoptosis-inducing effect of mobile phone exposure on glial cells in the brain

S. Dasdag, M.Z. Akdag, E. Ulukaya, A.K. Uzunlar

P-47 The apoptosis-inducing effect of mobile phone exposure on spermatogonia in seminifer tubules

S. Dasdag, M.Z. Akdag, E. Ulukaya, A.K. Uzunlar, D. Yegin

Poster session: Interaction mechanisms

P-49 Pain relief by magnetic field and radicals pair theory

P. Le Chapellier, B. Matta

P-51 UHF radiofrequency electromagnetic field influence on vegetal tissue at molecular level

M. Racuciu, S. Miclaus

P-53 Automated instrumentation for cell characterization by dielectrophoretic methods

M. Frénéa-Robin, V. Szymanski, F. Buret, L. Nicolas

P-55 Larmor precession, thermal noise and mechanisms for weak AC and DC magnetic field bioeffects

D.J. Muehsam, A.A. Pilla

Poster session: Medical applications

P-57 The numeric simulation of the electrical field on bone with capacitively coupled electrical stimulation

B. Bianco, B. Bisceglia, R. Cadossi, A. De Vita, E. Moggia, M. Sarti, S. Setti

P 59 WITHDRAWN

Poster session: Research programmes

P-61 The MMF Bioelectromagnetics Research Program

M. Milligan, T. Persson, J. Elder, S. Lang

P-63 EMF-PORTAL: Up-to-date information on scientific studies

S. Driessen, R. Wienert, D. Dechent, J. Silny

P-65 The french "Health and radiofrequency" foundation : a research program in the field of epidemiological, experimental and sociological sciences

M. Hours, F. Boudin, J.N. Favenec

Poster session: EU directive for workers

P-67 Implementation of the reduction factors on ICNIRP's guidelines provisioned in the new Greek legislation

G. Filippopoulos, E. Karabetsos

P-69 Assessment of electro surgeons exposure to electromagnetic fields according to directive 2004/40/EC

K. Gryz, J. Karpowicz

Poster session: Human studies

P-71 Statistics in Bioelectromagnetics

O. Petrowicz, J. Wiart, G. Friedrich

P-73 Cognitive function and symptoms in adults and adolescents in relation to EMF from UMTS base stations

I.S. Riddervold, G.F. Pedersen, N.T. Andersen, A.D. Pedersen, J.B. Andersen, R. Zachariae, L. Mølhave, T. Sigsgaard, S.K. Kjærgaard

P-75 Hypersensitivity to electricity. Part 1: First results of the electrosensitivity questionnaire

M. Crasson, S. Nevelsteen, J.J. Legros

P-77 Effect of mobile phone radiation on protein expression in skin of human volunteers: a feasibility study

D. Leszczynski, A. Karinen

P-79 Hearing loss in occupationally exposed to radio frequencies (RF) and microwave (MW) non-ionising radiations

C. Szanto

P-81 Effects of PEMFs on patients' recovery after arthroscopic surgery: prospective, randomized and double-blind study

R. Cadossi, S. Setti

P-83 Thermografy- method, an expression of effects produced by electromagnetic field

H. Popescu
